I am writing in connection with your paper entitled, "**Implementation of Citizenship Education Policies during the COVID-19 Pandemic**", recently submitted to .

I want to let you know that after carefully reviewing the content, **we cannot accept your article directly for publication**. A copy of our referee's comments, which might help you, can be found at the end of this message. Please correct it as per the reviewer's suggestion.

We are sure you will understand that we must be guided by the judgments of our academic referees.

Thank you for considering as a journal that allows publishing your work.

comments from the reviewers board:

1. The theme chosen is very interesting, but I have not seen the novelty of this article, so the author must show it so that this article is worthy of publication in the Elementary Education Online Journal.
2. Literature review is not a description of definitions, but looks at previous research to position your research.
3. The research method has not been described in detail, therefore it is necessary to describe it in detail up to the analysis of the data used.
4. The results and discussion are still superficial and need deepening by comparing with previous studies so that the novelty of the research results can be seen, this is very important.

So, we suggest that the writer immediately improve the article.

Sincerely,

Managing Editor
International Journal of Special Education

Your REVIEW REPORT article titled: , "**Implementation of Citizenship Education Policies during the COVID-19 Pandemic**".

Your article's performance has improved, our reviewers still have some suggestions for improvement before your article is published.

1. In the introduction, please indicate why this research is important or urgent to do regarding the vacuum of literature, so that the position of this article is very clear as new.
2. The theory used is still general and must be made specific to explain the phenomenon under study.
3. Results and discussion need to be complemented by in-depth qualitative interpretation and comparison with previous findings.
4. The existing references are very outdated, and it is necessary to add references from the latest journals in the last 5 years.

Sincerely,

Managing Editor
